

DUCATI DESMO 450 MX & EDX

CLUTCH SYSTEMS

Manual and auto clutch upgrades engineered specifically for Ducati's desmodromic off-road platform.

FITS: 2025–2026 DESMO450 MX | 2026 DESMO450 EDX

PRODUCT	TYPE	BEST FOR
TorqDrive Clutch Pack	Manual	Easy drop-in performance upgrade
APEX Clutch System	Manual	Race-proven durability
RadiusCX 4.0	Auto	Stall-free, clutch-free riding

MANUAL CLUTCH UPGRADES

TorqDrive Clutch Pack

Drop-in friction disk upgrade for your OEM clutch — more disks, less slip, better power transfer.

- +25% average torque capacity over stock
- More consistent lever pull and engagement
- Virtually eliminates clutch fade
- Direct fit — no other component changes

Fits: 2025–2026 Desmo450 MX | 2026 Desmo450 EDX

APEX Clutch System

Complete manual clutch system built around a patented Fixed-Pin hub. Race-proven at the professional level.

- Patented Fixed-Pin hub — no notching, ever
- TorqDrive friction disks maximize power transfer
- Billet Core components run cooler, last longer
- Comprehensive kit, 100% made in the USA

Fits: 2025–2026 Desmo450 MX | 2026 Desmo450 EDX

AUTO CLUTCH UPGRADE

RadiusCX 4.0 Auto Clutch System

The complete auto clutch package — stall-free riding, stronger power delivery, and class-leading durability, built around Rekluse's EXP 4.0 disk.

- Eliminates stalling — start and stop without the clutch lever
- Increased power transfer over OEM
- On-the-fly external engagement adjustment
- Run a taller gear and free up the suspension and chassis
- TorqDrive friction disks extend clutch life
- Billet Core components run cooler, more consistent lever feel

Kit includes: EXP 4.0 auto clutch disk, billet inner hub & pressure plate, TorqDrive friction disks, clutch cover

Fits: 2025–2026 Desmo450 MX | 2026 Desmo450 EDX

CLUTCH ACCESSORIES

Billet Slave Cylinder

Precise, consistent clutch actuation that holds up to race-day heat and abuse — a direct upgrade over the OEM slave cylinder.

Fits: 2025–2026 MX | 2026 EDX

Billet Clutch Cover

Purpose-built billet aluminum cover for the Desmo450 — improved heat dissipation with a precise, bike-specific fit.

Fits: 2025–2026 MX | 2026 EDX

WHICH REKLUSE CLUTCH IS RIGHT FOR YOUR DESMO450?

Zero stalling, clutch-free starts → **RadiusCX 4.0**

Maximum durability for racing → **APEX**
